I take comfort in all the wonderful memories we shared in my/our lives and believing in god and that we will be together again in time that makes me smile. You have a great grandson due in August we are all so excited. The family is all ok be it's tuff not sharing things with you like we always did. I spoke to you for the last time on this day and asked you to make sure you believed Jesus died for our sins, and to find the Lord and proclaim you love and belief in God. By doing such we will have internal life in heaven one day Pops. I could write forever Pops It comforts my soul it's my connection to you, you were quite the reader. “ We extend our deepest sympathies to you and your family, may the care and love of those around you provide comfort & peace to get through the days ahead. Even though I did not get to spend a lot of time with your Dad, I can honestly say that he is a kind & gentle soul with really fun side to him. I enjoyed talking to him about sports, .
I know that he will be missed greatly.

“ I didn't realize this day was coming so quickly. You were always a part of my day. Hearing your cheery voice on the phone or in person. I am very lucky to have an amazing man like you for a father. You always had the right words to say and answers for anything and everything we would be talking about. Dad, you always put a smile on my face and could make me laugh. I loved laughing with you! You always made time to come to Trevor's little league games when he was little. You still always made time to come to Trevor's roller hockey games when he was in high school. I am sure that made Trevor feel happy seeing his Grandpa Mike coming to his games and watching him play ball and hockey. Wish you were still here with us, but happy you were a part of my life for 57 years! Just know I love you and always will. I am sure your bunny rabbit misses you, seeing and hearing your voice and footsteps to bring her daily carrots and food! Big hugs and kisses.

Your Daughter,
Virgie

I want to give you a big hug and remind you what a wonderful father you are and will always be. I had you for 55 years we did so much together , so many great memories of us and the family taking the journey of life together, your life was a complete success and I'm proud to be your son. Pops we were tight till the end and you always looked out for your family so don't stop now you'll just have to do it from above .I'll always remember camping and the Bears got into our ice chest, you being my base ball coach and our little league days were special. We did it all Pops and we did it together. All the Dodger and Angel games, Rams and Raiders games were special times. The drag races ,boxing, golfing , basketball games, auto shows you gave me my love of sports . We visiting family often some I didn't know and you made sure I got to know them it was important to you to share your life with others and you took interest in there life as well, everyone was you friend you put yourself out there and lived a complete successful life. I'll miss hanging out watching the games with you golfing the short course ,cookouts, or even hitching a ride, you had my back and I love you for it you made me a better person. Naomi is here with me she said she wants to play with you and she loves you. All those days working your gardening business gave me good work ethics we always got the job done and I enjoyed the company , lesson well learned among many more. Now you sleep in the lord and I take comfort knowing you are in a great place and now God has your back. The family all pulled together for you service we got it all taken care of and we are tighter then ever for it . We'll be sure to look out for Mom and all your family because family was the most important thing to you, Thanks Pops for all you gave us I will truly miss our time together. “ Our memories of Mike was at get togethers with the family and talking about our music we liked. Our Oldies but Goodies. We will miss seeing him but will always have our memories. RIP Mike Frank & Darlene Giber

“ Thank you all for the kind words regarding my Dad , although all that my Dad meant to me, I could never completely express I will attempt to share with you what I can. Of course, I love him and do miss him dearly and will forever be grateful for the love and memories we shared which I will always cherish.

Let me say I am proud to call Mike Medina my Dad, he taught me much concerning kindness and forgiveness and I have no doubt he made me a better person, husband, father, and grandfather than I could have every achieved on my own. During the last time we had to visit I told him I considered him my personal Saint Joseph, a man who cared for, feed, clothed, taught the meaning of work, and loved me as a son although I was not biologically his. Dad had a beautiful gift of treating all his children and grandchildren and great grandchildren as his favorite. The only steps in our home were those that lead in from the front door.

Dad was always kind maybe big hearted to a fault, although he was of modest means he always found another dollar to give to a charity or anyone he could help. He gave to many charities I have never heard of. In conversation, POPS could have a conversation with anyone he encountered, he would have been as comfortable with the president as the person on the side of the road asking for change.

There is a special song that makes me think of Dad an oldie of course, by the Winstons - “Color him Father” it has always made me think about Dad with a smile, today the smile is still there but there is also a tear.

Love and hugs to you always POPS until we are together again.
