“ Calm, steady, faithful, dependable, compassionate...

Dr. Quon was my family dentist and he truly cared about his patients. For example he cared for my mother in the deepest sense of the this word at a time when she was slipping away into dementia and was therefore very fragile and easily overwhelmed by anxiety when disoriented. However, she felt totally at ease with Dr. Quon and his staff -- which was a very good thing, because after years of living by herself and not taking care of her teeth at all, there was >>a lot of work<< that needed to be done when she moved in with my family. Thankfully, his priority was not only excellence in treating her needs, but also to always make her comfortable by his gentle manner and patience with her. She was so blessed by his kindness and caring the last years of her life. Her smile is this photo, taken just weeks before she went home to heaven says it all. Thank you Dr. Quon!
